

15.4 Attendance Sheet

Date	What Work Done...	Hours
16-02-2026	Day 1 — Django Project Initialization Started the internship by revising core Python programming concepts including lists, dictionaries, tuples functions and exception handling. Installed Django framework and created a new project inside a virtual environment. Explored project structure, settings configuration and the role of manage.py in managing Django commands and running the development server.	7
17-02-2026	Day 2 — Application Creation & Template Setup Created the main application within the Django project and registered it in INSTALLED_APPS. Configured template directories and static file management. Designed a basic HTML layout and verified the connection between URL routing, views and templates.	7
18-02-2026	Day 3 — Database Integration Configured MySQL database connectivity with Django project. Updated database settings and created tables required for storing website data such as gallery images and contact form entries. Tested database insertion and retrieval to confirm successful communication between application and database.	7
19-02-2026	Day 4 — Authentication & Session Management Developed an admin login system with proper validation and session handling. Implemented authentication logic to restrict unauthorized access to the admin panel. Tested login, logout and session persistence functionality.	7
20-02-2026	Day 5 — CRUD Operations Development Implemented CRUD (Create, Read, Update, Delete) operations for managing gallery records. Connected frontend forms with backend logic and verified that data is correctly stored, displayed and removed from the database.	7
21-02-2026	Day 6 — Image Upload Implementation Configured media directory and implemented image upload functionality using Django file handling. Stored image paths in the	7

Date	What Work Done...	Hours
	database and displayed uploaded images dynamically on the gallery page.	
22-02-2026	Sunday Holiday <i>Internship work was paused due to weekly Sunday holiday.</i>	—
23-02-2026	Day 7 — Record Update Logic Developed functionality for updating existing gallery records. Implemented conditional logic to ensure existing images remain unchanged unless a new file is uploaded.	7
24-02-2026	Day 8 — Website Page Development Developed core website pages including Home, Jobs, About and Contact pages. Integrated backend data with frontend templates to ensure dynamic content display. Tested page navigation and UI structure.	7
25-02-2026	Day 9 — Admin Dashboard Development Designed an admin dashboard displaying total records. Implemented backend logic to fetch summarized data and display it in a structured layout.	7
26-02-2026	Day 10 — User Interface Improvement Enhanced website design using CSS styling techniques. Improved layout alignment, spacing and visual consistency to create a clean and professional user interface.	7
27-02-2026	Day 11 — Responsive Design Implementation Implemented responsive layout using CSS media queries. Tested the website on multiple screen sizes to ensure compatibility with mobile devices and tablets.	7
28-02-2026	Day 12 — URL Routing & Navigation Testing Reviewed URL routing configuration and verified dynamic URL parameters. Ensured smooth navigation between website pages and validated internal linking structure.	7
01-03-2026	Sunday Holiday <i>No internship work performed due to weekly Sunday holiday.</i>	—
02-03-2026	Day 13 — System Testing & Debugging	7

Date	What Work Done...	Hours
	Performed detailed testing of authentication system, CRUD functionality and contact form module. Identified minor logical issues and fixed them to improve application stability.	
03-03-2026	Day 14 — Database Verification Reviewed database records manually using MySQL tools to ensure accurate data storage. Verified relationships and optimized query execution where necessary.	7
04-03-2026	Holi Festival Holiday <i>Internship work paused due to Holi festival holiday.</i>	—
05-03-2026	Day 15 — Code Optimization Refactored and organized source code to improve readability and maintainability. Removed unnecessary code segments and improved project folder structure.	7
06-03-2026	Day 16 — Final System Testing Conducted end-to-end testing of the entire application including admin and client modules. Verified functionality of image upload, database operations and navigation flow.	7
07-03-2026	Day 17 — Documentation & Submission Preparation Prepared project documentation explaining system features, database structure and workflow. Organized project files and finalized the project for submission.	8
